## PFHU PROJECTS - UGANDA

*Welcome to PFHU May edition*

### **General progress**

As we continue to consolidate our work on improving the lives of those living in Kititi village, we wish to share with you some of the activities going on in this village. Because of us – PfHU, more children are going to school, receiving 1 mug of warm porridge per day at Cornerstone primary school and basic health care. More women under their umbrella group – women’s cooperative have been socio -economically empowered through tailoring business and more young men have been supported through casual work initiative at school.

Saudah (Mama Cathy) says.....“A few years ago, my husband abandoned my children and me, leaving me a single mother. Life was hard to bear. I had no means of support. I had to change my living situation, so I joined Kititi women’s cooperative. However, this did not sustain our household as the rent was high for our house. ‘Light at the end of the tunnel’. With the new sewing machine from PfHU, I am able to support my family, pay rent for my makeshift and improve my business.” Thanks so much PfHU.

We have also reached out more widely to the whole community through our mobile clinic visits and regular health trainings on various topics by Dr.Baker and Nurse Betty.

### **Holiday program**

Kititi primary have gone for a short holiday. The school will be opened again on 24<sup>th</sup> May 2021. Progression to the next class will be based on attendance and continuous assessment of class work and assignments.” Says Martin Oguti – Head of studies at Cornerstone nursery and primary school.

### **Food parcels**

Once again thank you so very much to all of you who have donated to towards food Parcels. We have managed to support families who have been in desperate need of food and essential support in the village.

We have only managed to do any of this because of your help. Thank you so much.

God bless you so much
